

YATHARTH RAJ GIRI

WEB DEVELOPER

Dharamshala,(HP) | yatharthgiri187@gmail.com | 7065365105 |  [yatharth1cr](#) |  [Yatharth Giri](#)

SUMMARY

Passionate frontend developer skilled in React.js, JavaScript, and modern web technologies. Experienced in building responsive applications, solving development challenges, and optimizing performance. Proficient with AI tools like GitHub Copilot, ChatGPT, Firebase, and Windsurf to enhance productivity and code quality. Focused on delivering efficient, user-friendly solutions.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Redux, Tailwind CSS, Bootstrap, MUI

Backend: Node.js, Express.js, MongoDB, REST APIs

Tools: Git, UNIX, GitHub, Vercel, Postman, VS Code, NPM

AI Tools: Copilot, ChatGPT, Firebase Studio, Windsurf

EDUCATION

- **GMSSSS** – Higher Secondary Education (CBSE)
- **YMCA-UNIVERSITY** – Bachelor of Technology(CSE)

EXPERIENCE

Trainee, AltCampus, Dharamshala (HP)

[August 2023 - September 2024]

- AltCampus is an alternative residential coding boot camp which trains in Full Stack Web Development.

PROJECTS

[AIResumeGenerator](#) ([Live Demo](#) | [Github](#))

Tech Stack: React.js, Redux, Tailwind CSS, Node.js, Express.js, MongoDB, CohereAI API, Vercel

Developed a full-stack AI-powered resume builder that allows users to generate professional resumes instantly using AI suggestions.

- Implemented Redux for theme management and state control (e.g., dark mode).
- Enabled real-time editing with customizable templates and export options (PDF, DOCX).
- Designed a responsive UI using Tailwind CSS for a modern and clean look.
- Deployed the application using Vercel for seamless access and continuous integration.

[Tourest](#) ([Live Demo](#) | [Github](#))

Tech Stack: HTML, CSS, JavaScript, React.js, Bootstrap, Vercel

Developed a responsive travel website with dynamic navigation, smooth scrolling, mobile-friendly hamburger menu, and integrated newsletter subscription and social media links for user engagement.

- Implemented a **responsive navigation bar** with a toggle menu using React state for better UX
- **Smooth Scrolling:** Enabled smooth page navigation for a better user experience.
- **Modern UI:** Styled using Bootstrap and custom CSS to ensure a clean and visually appealing layout.
- **Newsletter Section:** Integrated an input field and button for users to subscribe via email.
- **Reusable Components:** Structured the project with React functional components for modularity and reusability.

[FormValidation](#) ([Live Demo](#) | [Github](#))

Tech Stack : React, Formik, Yup, React Icons, Vite and ESLint

Developed a form validation application using React, Formik, and Yup.

- Real-time validation feedback
- Password visibility toggle
- Display of submitted data in a card format
- Automatic page refresh after submission
